Rapid Pay™

call for quote

Do you have departments at multiple locations?
Are you using timeclocks that don't link to your payroll software?
Do you spend too much time entering and reviewing payroll data?

If so, you might find our RapidPay add-on application useful. RapidPay acts as a "front end" interface to your payroll software, allowing you to post employee pay rapidly in a configurable spreadsheet-like screen, and/or to import data from your timeclock system or from an Excel file. Once the time is posted, you can easily review and/or adjust the postings prior to sending them to your payroll software for calculation and check printing.

It's a great solution for offloading the data entry process to the departmental level, while still allowing a supervisor to review the input prior to final processing. The Distributed version even allows you to post payroll offline and submit posting files to be aggregated and reviewed before they are processed. It's also easy to add customized error checking that's specific to your company, such as alerts regarding eligibility for benefits or pay type restrictions.

Check with your dealer or contact us for more information.

AP/PR Check Register

\$495 installed

Do you use the same checking account for Accounts Payable as for Payroll? If so, you may benefit from our Combined AP/PR Check Register. This is a check register report that lists checks written in both modules in one report. Saves a lot of effort with bank reconciliation!

California DE9 Solution

call for quote

This is a utility that extracts the employee list and data required for the quarterly California DE9 report into a format that can be submitted to the state using third party software from eSmart

New York NYS-45 Form

\$350 installed

Quarterly form required of all NY employers, listing employees, wages and UI insurance due.

This prints the return in a format that may be submitted directly.

The more employees you have the more time you save.

Email Direct Deposit Advice

\$1,295

This add-on utility allows you to email or fax direct deposit pay stubs to your employees as password-protected PDFs. It also archives each stub in a folder for later reprint or review.
